

Kitchen Makeover Questionnaire

Name: _____ Date: _____

There's a fundamental law of human nutrition that goes like this:

If a food is in your possession or located in your residence, you will eventually eat it.

(Whether you plan to or not, whether you want to or not, you'll eventually eat it! Trust us.) Therefore, according to this important law of human nutrition, if you wish to be healthy and lean, you must remove all foods that aren't part of your healthy eating program and replace them with a variety of better, healthier choices.

How do you know which foods have got to go and which foods can stay? Simply answer the questions below by selecting the response most appropriate to your situation. Once you've completed all the questions, your score will be calculated. And remember, be honest. You're doing this exercise to find out whether your kitchen is in good shape.
